

MANUAL POTATO CUTTER

TKCU-MPCA

STANDARD FEATURES

Aluminium construction

- ✓ Made from high-quality aluminum, this potato cutter is both lightweight and exceptionally durable, capable of withstanding frequent use in commercial kitchens.
- ✓ The long, ergonomic handle provides excellent leverage, making it easy to cut through even the toughest potatoes with minimal effort.
- ✓ The grid-style cutting mechanism ensures uniform slices every time, ideal for preparing perfectly cut fries and other vegetables quickly and efficiently.
- ✓ The sturdy base offers excellent stability during use, preventing slipping and ensuring safety while operating the cutter.
