

REFRIGERATED JUICE DISPENSER

TKCU-RJD1

STANDARD FEATURES

Single bowl

- ✓ This dispenser features a high-capacity 16-liter tank made from durable, BPA-free polycarbonate. The large capacity reduces the frequency of refills, making it ideal for high-demand environments.
- ✓ Equipped with an advanced cooling mechanism, this dispenser ensures beverages remain consistently chilled. The efficient refrigeration system rapidly cools the contents and maintains the desired temperature for optimal freshness.
- ✓ Designed for energy efficiency, this juice dispenser operates at a low power consumption of only 1.0 Ampere. This makes it an economical choice for businesses, reducing energy costs without compromising performance.
- ✓ Constructed with high-quality stainless steel and a virtually unbreakable polycarbonate tank, this dispenser is both durable and easy to clean. The stainless steel drip tray and removable components simplify maintenance, ensuring hygiene.

PRODUCT SPECIFICATIONS

Dimensions	26,5 x 37,5 x 70 cm
Temperature	+2 °C to +10 °C
Volume	16 L
Rated current	1 A
Refrigerant/Mass	R-134A / 100 g
Energy source	220 V / 50 Hz
Foaming agent	C5H10
