

REFRIGERATED JUICE DISPENSER

TKCU-RJD2

STANDARD FEATURES

Double bowls

- ✓ This dispenser features two large 16-liter tanks made from durable, BPA-free polycarbonate. The dual tanks allow for serving multiple types of beverages simultaneously, enhancing versatility and convenience in high-demand environments.
- ✓ Each tank is equipped with an independent cooling mechanism, ensuring beverages remain consistently chilled. The advanced refrigeration technology provides rapid cooling and maintains the desired temperature for optimal freshness.
- ✓ Designed for energy efficiency, this juice dispenser operates at a low power consumption of only 1.5 Amperes. This makes it an economical choice for businesses, reducing energy costs without compromising performance.
- ✓ Constructed with high-quality stainless steel and virtually unbreakable polycarbonate tanks, this dispenser is both durable and easy to clean. The stainless steel drip trays and removable components simplify maintenance, ensuring hygiene and longevity.

PRODUCT SPECIFICATIONS
