

ELECTRIC PORTAFILTER CLEANER

TKPE-CPC-22B

STANDARD FEATURES

Countertop or Built-In

- ✓ Automated Portafilter Cleaning for Speed and Consistency: The CPC-22B streamlines barista workflow by automating portafilter cleaning. This minimizes manual effort, improves hygiene, and ensures consistent preparation across all shifts.
- ✓ Compatible with 53 mm and 58 mm Portafilters: Engineered to accommodate standard commercial portafilters, including 53 mm and 58 mm sizes — ideal for use across multiple espresso machine brands in cafés and hospitality operations.
- ✓ Gentle TPU Brush Preserves Equipment: Fitted with a flexible TPU impeller brush, the device removes residual coffee grounds without damaging portafilter baskets — extending component life and maintaining brew consistency.
- ✓ Space-Saving Design with Automatic Activation: The compact 140×140 mm footprint fits neatly on any workstation, while the infrared sensor automatically triggers cleaning, allowing baristas to multitask efficiently.
- ✓ Flexible Installation: Countertop or Built-In: Designed for adaptability, the CPC-22B can be placed directly on the counter or seamlessly built into the bar surface, making it ideal for both new installations and retrofits.
