

TABLE TOP REFRIGERATOR

TKSA-TTR150

STANDARD FEATURES

2 doors

- ✓ This table top refrigerator is designed with energy efficiency in mind, operating at a low power consumption of only 1.1 A. This significantly reduces electricity costs and makes it an environmentally friendly option for commercial use.
- ✓ Featuring two large doors for easy access, this refrigerator offers ample storage capacity. It includes two adjustable-height shelves, allowing for customizable storage configurations to accommodate various product sizes.
- ✓ Equipped with an advanced cooling system, this refrigerator ensures rapid temperature stabilization and consistent cooling throughout the unit. It maintains optimal storage temperatures to preserve the freshness and quality of stored items.
- ✓ Built with high-quality stainless steel, this refrigerator offers superior durability and resistance to corrosion. The robust construction ensures long-term reliability and easy maintenance, making it ideal for demanding commercial environments.
